

TENANT PORTAL

INSURANCE

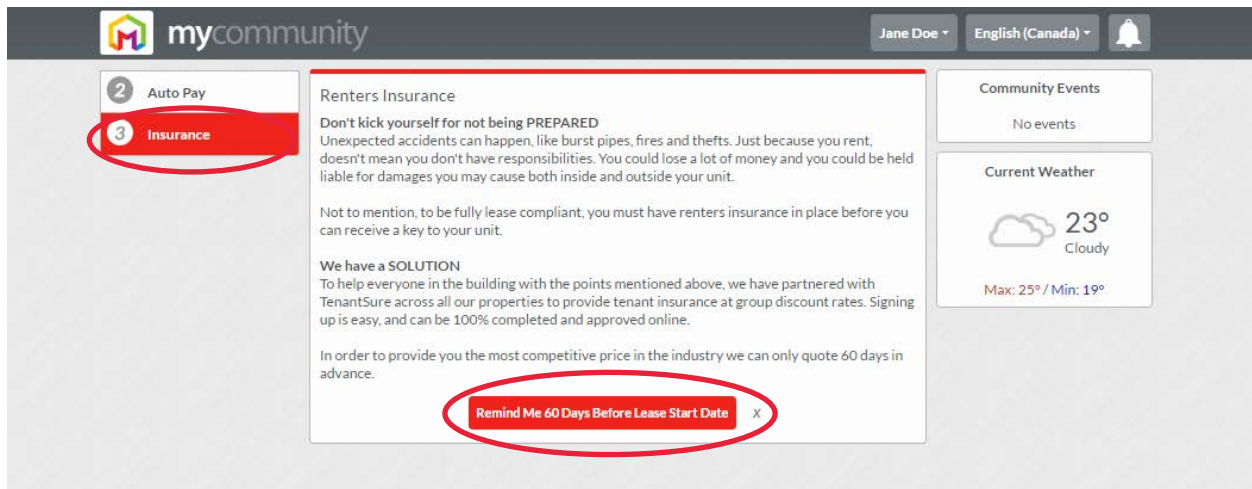

We require each of our tenants to have insurance as per the lease agreement.

If you do not have renters insurance you can easily sign up for it through the portal.

To find out more about tenant insurance please check out the FAQ page where we have information and answers as to the details of tenant insurance.

The sooner you set this up the better, because the portal will continue to remind you leading up to your move-in date.

If you do not wish to get tenant insurance at this time please click the reminder button labelled [Remind me 60 Days Before Lease Start Date].

IMPORTANT: If you do not set-up renters insurance at this time there will be a new tab created at the right hand side of the screen (shown with arrow) reminding you to get renters insurance coverage.
