No. Your policy is set up with recurring automatic payments per your authorization and we will continue to deduct the payments on your billing date until the end of the fixed term.

Your billing date is 2 weeks before the start of your next billing period. This provides us the time needed to contact you and prevent a lapse in coverage in the event your authorized payment method is declined for any reason.

On monthly payment terms, the 1st payment is charged at the start of your coverage and the 2nd payment is charged two weeks before your next coverage period. This date also becomes your billing date for each month going forward. Renters/Liability Insurance protects you from having to pay out for any damages you accidentally cause to your building/suite. It also protects you if you are held responsible for injury to another person.
